

STEPS FOR TURNING IN A COMPOSITION

1. Connect to the server: Go – Connect to server –
Name:nashmusictech – Password: nashmusictech –
MACDATA – NASHmusictech folder – Find your period
2. Save the composition as a program file. This is the normal way of saving a file in Garageband, Finale, or Reason. Drag the file from your documents, or wherever you have saved the file, to your folder on the network.
3. Save the composition as an mp3 file. In Garageband, go to share, send song to itunes. In the popup menu, check the compress box. Next to “Compress Using,” choose mp3 encoder and this will send it directly to your itunes library. Drag the mp3 file from itunes to the network
4. Log on to <http://www.yosoyartista.net> and upload your composition to your online portfolio. The composition will need to be in mp3 form in order to upload it to YoSoy. Write a description of your piece to give the listener background on the composition. Make sure you mark the box that will notify Mrs. Leckey when a file has been uploaded.
5. Complete the composition evaluation form that can be found online and turn it in to Mrs. Leckey
