

Computer Lab – Online Music Sites

Name_____

Period_____

Below are a list of music websites that contain music theory information, ear training, music writing software, student compositions, and music games. Visit the sites throughout the class. Please write what you did on each site and where you left off in the space provided below each site. This will help you to pick up where you left off the next time you are in the lab.

All sites can be found through Mrs. Leckey's website: www.bethleckey.com Go to Carson Chorus and Online Music Resources

2: Rhythm Counter

3 Good Ear – Go to intervals and do 20 examples of each: simple intervals up, simple intervals together, diatonic intervals up, diatonic intervals together. If you are doing well, try different variations of intervals. Try the other ear training exercises when you are done: Scales, Chords, Cadences, Note Location, and Perfect Pitch.

#4 Music Theory – Review topics discussed in class and test your music theory skills

#5 Music Flashcards

#6 Sightsinging – Practice sightsinging and learn new strategies to improve your skills.

#12 Simon Says – Can you beat the high score of 20? Good Luck

#13 Music Games

#14 Music Games

#15 Drum set

#18 Theory Lessons

#19 YoSoy – Comment on 2 student works
